QUIZ APPLICATION

ANDROID

ABOUT THE PROJECT

Quiz Application is an android application that has general questions related to general knowledge. It has multiple choice questions without any time limit and it also calculate scores of each correct answer. First the user have to sign in then the user is registered to our application now the person can login and take quiz. After login our application will have two options namely Take quiz and Filter. This filter option enables us to select the difficulty(easy, medium, hard) and category(different categories provided by the API). After selecting these two, user can start the quiz by clicking on take quiz option. User can see a question along with four options and he has to select a single correct answer among them. By clicking on the next option provided below, he can go to the next question. User can even go to the previous question and can re-select the answer by clicking on the previous. At the last question submit option will appear in place of next option. If a user clicks on submit option a box will appear which asks user to submit the quiz or cancel the submission. If user selects submit option then the quiz will be submitted and results will be shown immediately. This application allows user to view the solutions.

FEATURES

- 1.) Their are different categories to choose to take QUIZ
- 2.) We can choose the difficulty level to choose to take QUIZ
- **3.)** After completion of QUIZ for each and every question their is status of answer to check with
- 4.) After QUIZ questions and answers are displayed side by size to check
- **5.)** At last score is displayed in percentage

ANDROID COMPONENTS

- · Relative layout . API
- · Constraint layout
- Text View
- · Edit text
- Password
- · Button
- · Radio buttons
- · Image view
- · List View
- · Intent
- · Database (SQLite)
- · Adapters
- · Toast

USER INTERFACE (UI)

PAGE WISE UI DESIGN: Approx we are using 14 pages and login and sign up pages.

Login page:

Username field, the password field, login button, and sign-in button
